- (3) Manitoba's requests for progress payments shall be reviewed against the findings made under the system of control referred to in Clause 4.
  - (4) Neither a Progress Report nor a payment by Canada pursuant to this clause shall be construed as evidence that the housing, work, material or any part thereof is complete, satisfactory or in accordance with this agreement.
4. (1) At all times during the term of this agreement and from time to time Canada or any person or persons acting on Canada's behalf shall have access to any portion of the housing under construction pursuant to this agreement for any work or inspection they or one of them desire and Manitoba and any of its contractors or workmen shall facilitate this work and shall provide to Canada all information requested as to the progress and scheduling and as to the accrued and anticipated capital costs of the said housing.
- (2) Canada may at its own cost provide and operate a system of control for the purpose of aiding the scheduling, managing and performing the construction of the housing in order to identify and remedy those parts of the construction process which will or are likely to cause delay and added expense or one of them to the construction of the housing.
5. (1) Time shall be of the essence of this agreement.
- (2) The waiver or acquiescence of Canada in any default by Manitoba under any clause of this agreement shall not be deemed to be a waiver of such clause or any subsequent or other default thereunder.

7. This agreement shall not be assigned but it is expressly understood that Manitoba may engage contractors and sub-contractors to execute such portions of the construction required under this agreement as it considers necessary or advisable, Provided that Manitoba shall invite tenders by public advertisement for construction of housing pursuant to this agreement in those cases where contractors or sub-contractors are to be engaged by Manitoba and further provided however that

  - (2) Upon termination of this agreement as set forth in sub-clause (1) of this Clause 8, Manitoba shall complete the construction of any housing then in the course of construction only, and Canada shall pay for such net capital costs as may have been incurred as set forth in Clause 3 hereof, but no further or other construction shall be commenced pursuant to this agreement.

Manitoba shall indemnify and save harmless Canada from and against and be responsible for all claims, loss, damage, costs, whether solicitor and client or party and party, actions and other proceedings made, brought, sustained or prosecuted in any manner whatsoever based upon the construction of housing pursuant to this agreement.
10. If Canada is of the opinion that the national security is involved, she may request Manitoba to provide information respecting persons employed in respect of this agreement by Manitoba or by an independent contractor and may order the removal of any person or persons so employed and Manitoba agrees to comply with such request.

PRIVY COUNCIL • CONSEIL PRIVÉ

WHEREAS the Secretary of State for External Affairs reports that:

The Sahelian Zone, and particularly six countries situated therein, has been stricken by prolonged droughts and suffers from widespread famine;

The dire plight of the inhabitants was the subject of a special worldwide appeal for assistance made to the international community by United Nations' Secretary General Kurt Waldheim on May 15, 1973;

This appeal is embodied in ECOSOC Resolutions numbers 1759, LIV Session and 1797, LV Session dated May 18 and July 11, 1973 respectively and inter alia a mandate was granted to the Food and Agricultural Organization to assess the priority needs, assist national donors in effectively serving these and to exercise an overall responsibility for effective co-ordination;

Pursuant to the mandate it was granted, the FAO established a bureau at its Rome Headquarters known as the Office for Sahelian Relief Operations (OSRO);

The combined efforts of FAO/OSRO are demonstrably effective; wide support of their endeavours has been forthcoming from national donors and in a remarkable degree the other interested UN Specialized Agencies are lending utmost co-operation, thus avoiding past experience where internecine disputations have often led to confusing of the essential aims and objectives. In these latter aspects their ready assistance in resolving modalities and technicalities for earlier Canadian emergency airlift operations in the Sahel contributed to this initiative becoming recognized as among the most effective that has been mounted within that Area while the counsel offered on the staging of our food stuff deliveries at West African ports is also proving invaluable;

.../2

There now exists a most urgent need to bolster land transport facilities, particularly through the provision of trucks, if supply lifelines are to be sustained for the next critical six months;

While it is desirable that this vital need should be served in some appreciable degree by Canada vehicles of the desired types are of European manufacture, their equivalents are unavailable from North American suppliers and it would be imprudent to attempt substitution of units that could neither be effectively operated in the Area nor maintained in serviceable condition. A further consideration rests with the rather critical time frame which dictates that procurement should be conducted to the maximum feasible extent from the assessed stocks obtainable at West African locations such as Dakar, Abidjan, etc.;

Recent discussions held with FAO/OSRO produced their offer to extend to the Government of Canada purchasing, delivery and operating facilities of the UN system without recovery of overhead or administrative costs. Total procurement would comprise thirty lorries of 6-10 ton capacity each plus spare parts designed to ensure road worthiness for at least twelve months. With a view to serving the essential objectives within this same proposal, the UNDP Resident Representatives would act on our behalf by handling all operating costs for six months following initial delivery, covering such items as drivers' salaries, petrol, oil, maintenance, the placement of comprehensive insurance, registration, etc. Specifically, this would have the advantages of exercising a necessary degree of control to reduce the risks of misuse or diversion, provide the feature of complete accountability of the funding and relieve the recipient countries of operating costs which they would be unable to defray at the present time. After six months each vehicle would be given a major overhaul with the transfer of title and registration then passing to the recipient country. This final transfer of title of the vehicles would involve receipt by the Governments of Chad, Mali, Mauritania, Niger, Senegal and Upper Volta of five units each to augment the capacities of their national transport bodies or agencies;

- 3 -

The above proposed arrangements have been the subject of discussion with representatives of the six Governments who are either resident here in Ottawa or in Washington. All have given favourable responses and four have already conveyed the formal concurrences of their respective Governments. No difficulties are envisaged in obtaining similar formal concurrences in the remaining two cases and such short delays as were encountered seem to result from normal communications' delays;

It is considered desirable and expedient in these circumstances to make a grant of \$1.0 million to FAO/OSRO for the urgent procurement of the transport facilities described;

The Special Account authorized by Vote 33(d) of the Appropriations Act No. 2, 1965, as amended, provides authority to make payments subject to terms and conditions approved by the Governor in Council, to recognized international development institutions for extending economic and social assistance to developing countries.

THEREFORE, HIS EXCELLENCY THE GOVERNOR GENERAL IN COUNCIL, on the recommendation of the Secretary of State for External Affairs, is pleased hereby to authorize, pursuant to Vote 33(d) of the Appropriations Act No. 2, 1965, as amended, payments not exceeding Canadian \$1,000,000 to the Food and Agricultural Organization of the United Nations, on the condition that the Organization devotes these funds to Sahelian relief operations in the immediate term and an improvement of the Area's surface transport capacities in the longer term, more particularly to the procurement of motor transport facilities and to enter into an appropriate arrangement with Canada toward this end.

\$ 4,611

- A. The purpose of this grant, which is the second of a three year developmental program, is to help the C.Y.H.A. defray the cost of setting up a new operation in Manitoba with an office centered in Winnipeg. In 1972-73, a grant of \$5,740 was made for the initial year of the proposed three year developmental program. (T.B. 716667, P.C. 1973-7/437, dated February 20, 1973)

The objectives of the C.Y.H.A. in Winnipeg are to establish:

Part of the Executive Secretary's salary	\$4,000
In province travel of the Secretary	\$ 200

The C.Y.H.A. is contributing \$4,550 towards the office in Winnipeg.

## CANADIAN PARKS AND RECREATION ASSOCIATION

\$35,218

A. The grant is to enable the organization to maintain and increase the French language content of the magazine "Recreation Canada". This is the fourth time this grant will be made; although the effect has been quite positive and the membership within the French speaking community is increasing, the revenue from French advertisers is not yet sufficient to withdraw support. Assistance is towards the translation of significant articles. \$ 7,000

B. Assistance for one Executive Board Meeting and four Executive Committee Meetings. 4,300

This grant will cover:

- The travel expenses of the 16 persons to the Board Meeting and five persons to the four Executive Meetings.

C. Assistance towards an Evaluation Meeting to be held at Trent University. It is hoped that the meeting will prove very beneficial to CPRA in developing new insights and goals for international and external programs and a new forward thrust for the Association. 16,280

The grant is to cover economy air fare, living expenses, ground transportation for the 60 delegates and administrative expenses of the meeting.

D. Assistance towards the operation of the organization's magazine; although income from advertising is increasing, it is considered that continued support for this purpose is essential since the "Recreation Canada" magazine is the major communication instrument the organization has and performs an important function which would be endangered if subscription fees were to be raised to a level where a large portion of the present subscribers would be unable to continue receiving it. 6,000

  - (d) should the opening date of the major first phase be 1980 or later,
  - (e) should there be a partial or limited opening of the new International Airport prior to 1980,

C.P. 1973-3144

Le 16 octobre 1973

Vu le rapport du ministre de l'Energie, des Mines et des Ressources exposant

Qu'une décision du gouvernement datée du 28 septembre 1972 a autorisé L'Energie Atomique du Canada, Limitée (E.A.C.L.) à préparer un accord avec la Commission hydroélectrique de Québec (l'Hydro-Québec) relativement à l'implantation d'une centrale électronucléaire de 600 MW employant un réacteur CANDU (ci-après appelé "projet") pour l'approbation du gouverneur en conseil, en respectant les principales conditions de paiement et autres de la décision du gouvernement;

Que les dispositions prévues par ladite décision supposent que le gouvernement fédéral appuiera financièrement le projet et fournira, par l'entremise de l'E.A.C.L., les services d'experts-conseils en matière de gestion et de conception pour la centrale nucléaire, y compris l'évaluation des soumissions et les recommandations relatives à l'achat de biens et de services;

Qu'il a été jugé opportun de rédiger deux accords portant respectivement sur la question du financement par le gouvernement fédéral que mentionne ladite décision (et dont le projet figure à l'annexe "A" et est appelé ci-après "Accord de financement") et celle des services d'experts-conseils que mentionne ladite décision (et dont le projet figure à l'annexe "B" et est appelé ci-après "Accord sur les services d'experts-conseils");

Que l'Accord de financement prévoit, entre autres choses, que

- 2 -

- (i) l'E.A.C.L. consentira à l'Hydro-Québec des prêts semestriels couvrant 50 p. 100 des immobilisations, comprenant l'intérêt accumulé durant la construction du projet, jusqu'à concurrence d'un maximum de cent cinquante et un millions de dollars (\$151,000,000), au taux fixé par le ministre des Finances pour les prêts consentis aux sociétés fédérales de la Couronne dans des conditions équivalentes au moment où chacun des prêts sera versé;
- (ii) chaque prêt sera attesté par une note dûment autorisée et souscrite par l'Hydro-Québec et portant une garantie valide, inconditionnelle et irrévocable de la part de la province de Québec quant au remboursement intégral du principal et de l'intérêt;
- (iii) la somme de tous les prêts et de l'intérêt sera remboursable en 25 versements annuels égaux dont le premier sera payable un an après la date de mise en service du projet; et
- (iv) l'Accord restera en vigueur jusqu'à ce que toutes les sommes prêtées à l'Hydro-Québec aux termes de l'Accord et l'intérêt couru sur ces sommes aient été remboursés intégralement à l'E.A.C.L.;

Que l'Accord sur les services d'experts-conseils prévoit, entre autres choses, que

- (i) l'Hydro-Québec assumera totalement la direction du projet, notamment en ce qui touche la conception, la technique, la construction et la commande de services et autres fonctions connexes, l'E.A.C.L. jouant, par le truchement de ses ingénieurs et autres employés, le rôle d'ingénieur-conseil comptable à l'Hydro-Québec de l'exécution de l'Accord;..

- 3 -

- (ii) l'E.A.C.L. fournira les services techniques touchant la conception intégrale du dispositif nucléaire du projet, comme il est exposé plus en détail à l'appendice II de l'annexe "B", ainsi que l'aide à la formation du personnel de l'Hydro-Québec;
- (iii) l'Hydro-Québec paiera à l'E.A.C.L. un prix ferme de vingt millions de dollars (\$20,000,000), plus un rajustement en versements mensuels pour couvrir l'accroissement des coûts attribuable à la hausse des prix, plus un droit fixe de deux millions de dollars (\$2,000,000), la somme dudit prix ferme, du rajustement et du droit fixe ne devant pas dépasser vingt-sept millions de dollars (\$27,000,000);
- (iv) l'E.A.C.L. donnera des garanties quant à la consommation de combustible, à la gestion de l'eau lourde et au débit de vapeur;

Que l'Accord de financement a été dressé en étroite consultation avec le ministère des Finances et que l'E.A.C.L. et le ministère se sont entendus sur le texte de l'annexe "A";

Que l'arrangement exposé dans le projet d'Accord de financement et dans le projet d'Accord sur les services d'experts-conseils est considéré comme souhaitable dans l'intérêt public:

A ces causes, sur avis conforme du ministre de l'Energie, des Mines et des Ressources, il plaît à Son Excellence le Gouverneur général en conseil d'approuver par les présentes la souscription et l'exécution des accords entre L'Energie Atomique du Canada, Limitée et la Commission hydroélectrique de Québec essentiellement suivant les termes des accords reproduits aux annexes "A" et "B" ci-après.
